BILBAO URBAN & CITIES DESIGN GROUP

Reimagine, Rethink and Redesigning Cities

We are a hub of Urban Strategy Thinkers who came across during the Bilbao Metropolitan Urban Transformation. We firmly believe that the enriching experience gained during that award-winning process may serve to inspire other cities worldwide.

Bilbao Urban Design & Cities gathers together professionals from different areas such as urbanism, architecture, engineering, environment, energy efficiency, and mobility, strongly engaged with more sustainable and efficient urban models.

We promote innovative urbanistic models that integrate in a long term vision strategy to improve the quality of life of the citizens and attract new investors to compete internationally in the new World of Smart Cities.

At the same time Bilbao Urban & Cities Design embraces some of the best and most innovative Urban Solution Companies, that work in close cooperation with strategically selected local partners, to guarantee the sustainability and success of any kind of urban project.

Whether you are planning to design a new urban area or to rejuvenate an old-fashioned city, our full integral service-pack will drive you smoothly through the development and execution of your design.

We are proud to be part of a broad collaborative network of public and private bodies, that offers solid funding opportunities to assist the most outstanding projects.
